How to get started: Decide first which email address you want associated with your account. You may use a personal (non-HonorHealth) email address, or your HonorHealth email address. Either is fine, but they require different steps to complete.

- If you prefer to use your personal email address, simply contact Library Services at Library@honorhealth.com, or call 480.323.3870 and ask about setting up a ClinicalKey account.

- If you choose to use your HonorHealth email address, follow the steps below. Please note that remote access is not possible until you complete Step #5.

1. From an HonorHealth computer go to https://www.clinicalkey.com and choose Register in the upper right corner.

2. Complete the registration form. Use your HonorHealth email address. *Password must be at least 5 characters.*

3. Click Register when finished. You now have a ClinicalKey user profile.

4. ClinicalKey displays an activation message and sends you a confirmation email.

5. Click on the link within the confirmation email to activate remote access.

6. Remote access is now activated. You can use ClinicalKey from any internet-connected device when logged into your user profile.

About every 6 months, all users receive reminders requiring to verify their continued association with HonorHealth. Be sure to follow the instructions and use an HonorHealth computer. 2019 FEB / SCS
