The Op-Note is the newsletter of the Peri-Operative Surgical Home, a multi-disciplinary project at Phoenix Indian Medical Center. Check POSH out on the web at http://azhin.org/pimc/posh.

The last shipment of the We Move! chairs arrived!

These are the patient and visitor chairs for 3E and Respiratory Therapy! They’re great for the small isolation rooms, and there’s a bariatric version that Sheena and Anathea tried out today! The bariatric version (750 pound limit) is on the left, and the non-bariatric version (350 pounds) is on the right.

We had about 90 staff members attend the lecture series! The majority were inpatient nurses from all floors and float pool, and we also had many staff members from nutrition, pharmacy and respiratory therapy. Thank you to all of the supervisors who encouraged and facilitated attendance, as well as our awesome nurse educators Myra and Marva! For those who did not attend, the lecture can be viewed online here.
Mark your calendars for the POSH Holiday Party!

POSH Holiday Party!
Tuesday, December 16, 2:30-3:30 PM
Conference Rooms A&B

We will meet for a short A&P discussion and then will follow with some holiday cheer among our POSH teammates.

Treats will be served.
Please bring something to share if you like!

Happy Holidays!
